

Product Name :
Food Processing Potato Rice Burger Patty Machine

Product Code :
MACHEQ-F-M2651008

Description :

Food Processing Potato Rice Burger Patty Machine

Technical Specification :

Potato Patty Forming Machine can automatically perform various procedures such as meat filling, forming, paper interleave and outputting and combine a fully automatic prepared food line .It adopts the method of screw feeding system, greatly reduces the cutting of the material, equipment for making burger can be used to produce all kinds of shape product by changing forming plate. potato hamburger forming machine has better features of high production capacity and stable quality.

Capacity: 100-300kg/h

Stroke Times: 25-50 times/minute

Volume of feed bin: 120L

Power: 7.5KW

The electricity: 380V/50Hz,3P,415v/220v,3p

thickness of product: 6-30mm

maximum diameter: 150mm(for round burger)
